

Product specification sheet

Product title | 1SKB-SC194U SKB 4U Soft Rack Case

Description

Primarily designed for wireless microphone systems, the 1SKB-SC194U, a 4U rack size, features 600 Denier nylon-covered wood core construction and includes an adjustable shoulder strap and loop handle for easy transport.

The 14.5 depth (front rail to back flap) provides plenty of room for the most popular wireless systems and is also an ideal solution for pre-amps, effects, etc. The padded front and back lid has heavy duty zippers that allow the flaps to open fully and fold underneath. A zippered pouch on the inside front flap provides excellent storage for wireless mic antennae. The large exterior zippered pouch is ideal for cables and/or body packs. Threaded steel rack rails are recessed to provide protection for equipment controls without inhibiting proper antennae placement. These cases are covered by SKBs one year Soft Product warranty.

Features
